&lt;p&gt;Article Summary&lt;/p&gt;

&lt;p&gt;X&lt;/p&gt;

&lt;p&gt;Roulette is a casino game played at a table that features 38 numbers, 2 colors, and a roulette wheel &#128185; that has all of the same numbers and colors on it. At the beginning of the game, players place bets &#128185; on the different spaces on the table. Every table has a minimum bet, like R\$10, but players can bet more than &#128185; that and bet on multiple spaces if they'd like. Players are trying to bet on which number they think the &#128185; ball will land on when it's dropped into the spinning roulette wheel. Players can also bet on which color, red &#128185; or black, the ball will land on. Placing a chip directly on a number has a payout of 35 to &#128185; 1. Placing a chip on one of the color spaces has a payout of 1 to 1. Players can also &#128185; split their bet by placing a chip on the line between 2 numbers. If the ball lands on either of &#128185; those numbers, the payout is 17 to 1. Similarly, players can place a chip on the outside border of a &#128185; row of 3 numbers. If the ball lands on any of those 3 numbers, the payout is 11:1. Players can &#128185; also place a chip at the intersection of 4 numbers. If any of those 4 numbers come in, the payout &#128185; is 8 to 1. Besides the number and color spaces, there are other spaces on the table that readers can &#128185; bet on. They can place a bet on the First Row, Second Row, and Third Row spaces. If a number &#128185; in the corresponding row comes in, the payout is 2:1. Similarly, players can bet on the First Dozen, Second Dozen, &#128185; and Third Dozen spaces. If one of the 12 numbers that correspond with the space comes in, the payout is &#128185; 2:1. Players can also bet on whether they think the ball will land on an odd or even number. If &#128185; they're right, the payout is 1 to 1. Finally, players can bet on the 1 to 18 and 19 to &#128185; 36 spaces. If the ball lands on a number within that range, the payout is 1 to 1. As players &#128185; are placing their bets, the dealer will spin the roulette wheel and drop the ball into it. Players can continue &#128185; betting until the dealer waves their hand and says No more bets. Once the ball lands on a number, the &#128185; dealer will pay out anyone who bet on that number or color. Then, a new round of betting starts, and &#128185; the game repeats. If you want to learn how to calculate your odds of winning roulette, keep reading the article!&lt;/p&gt;
